Edit Subject:

Application for Associate Software Engineer at Micron Technology

Edit Email Body:

I would like to highlight a few projects that demonstrate my qualifications for this position. My Automated Email Reminder project, which utilized GitHub daily personalized programming tips and DSA questions, showcases my expertise in cloud computing and automation. Furthermore, my AI Flappy Bird project consistently surpass a score of 70 within 30 generations, demonstrates my ability to engineer AI-driven solutions.

I am particularly drawn to Micron Technology's commitment to creating a diverse and inclusive environment, and I am excited about the opportunity to collaborate. I have attached my resume for your reference, which provides a comprehensive overview of my skills, experience, and achievements.

I would welcome the opportunity to discuss my application and how my skills align with the requirements of the role. If I do not hear back within the next 7 days, I will continue to have a continued interest in the position. Thank you for considering my application.

Sincerely,
Abdul Rahman
